**TITLE 16 OCCUPATIONAL AND PROFESSIONAL LICENSING**  
**CHAPTER 39 ENGINEERING AND SURVEYING PRACTITIONERS**  
**PART 1 GENERAL PROVISIONS--PROFESSIONAL ENGINEERING AND SURVEYING**  
**ORGANIZATION AND ADMINISTRATION**

**16.39.1.1 ISSUING AGENCY:** State Board of Licensure for Professional Engineers and Professional Surveyors, 2550 Cerrillos Road, Santa Fe, NM 87505, telephone no. (505) 476-4565.  
[16.39.1.1 NMAC - Rp, 16 NMAC 39.1.1, 1/1/2002; A, 7/1/2006; A, 7/1/2015]

**16.39.1.2 SCOPE:** Provisions for Part 1 apply to staff and officers of the board and to any person licensed as a professional engineer or a professional surveyor, or to anyone applying for licensure as a professional engineer or a professional surveyor in New Mexico.  
[16.39.1.2 NMAC - Rp, 16 NMAC 39.1.2, 1/01/2002]

**16.39.1.3 STATUTORY AUTHORITY:** NMSA 1978, Section 61-23-10 (B) prescribes that "The board shall have the power to adopt and amend all bylaws and rules of procedure consistent with the constitution and the laws of this state that may be reasonable for the proper performance of its duties and the regulation of its procedures, meeting records, examinations and the conduct thereof. The board shall adopt and promulgate rules of professional responsibility for professional engineers and professional surveyors that are not exclusive to the practice of engineering or exclusive to the practice of surveying." 16.39.1 NMAC applies to both engineering and surveying.  
[16.39.1.3 NMAC - Rp, 16 NMAC 39.1.3, 1/01/2002; A, 7/01/2006]

**16.39.1.4 DURATION:** Permanent.  
[16.39.1.4 NMAC - Rp, 16 NMAC 39.1.4, 1/01/2002]

**16.39.1.5 EFFECTIVE DATE:** January 1, 2002, unless a later date is cited at the end of a section.  
[16.39.1.5 NMAC - Rp, 16 NMAC 39.1.5, 1/01/2002]

**16.39.1.6 OBJECTIVE:** The objective of Part 1 of Chapter 39 is to clearly define the organizational structure of the board, the types of meetings and order of business, the number needed for a quorum, the duties of the officers, the responsibilities of the board, the preparation and distribution of a roster of licensed professional engineers and surveyors, the establishment of fees, and retired status.  
[16.39.1.6 NMAC - Rp, 16 NMAC 39.1.6, 1/01/2002]

**16.39.1.7 DEFINITIONS:**  
**A.** "Category" means professional engineer or professional surveyor.  
**B.** "Branch" means discipline.  
[16.39.1.7 NMAC - Rp, 16 NMAC 39.1.7, 1/1/2002; A, 7/1/2015]

**16.39.1.8 THE BOARD:**  
**A.** The name of this board shall be the state board of licensure for professional engineers and professional surveyors hereinafter referred to as the "board".  
**B.** The official seal of the board shall be an embossed circular seal one and three-quarter inches in diameter consisting of two concentric circles; the outer circle to be one and three-quarter inches in diameter. The inner circle is to be one and one-quarter inches in diameter. The inner circle shall contain the seal of the state of New Mexico and the words, "State of New Mexico." The words, "Board of Licensure for Professional Engineers and Professional Surveyors", shall be contained between the two (2) concentric circles.  
**C.** The fiscal year of the board shall be July 1, through June 30 of the following calendar year.  
[16.39.1.8 NMAC - Rp, 16 NMAC 39.1.8, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

**16.39.1.9 MEMBERS OF THE BOARD:** Members of the board are not employees within the meaning of that term under the Governmental Conduct Act; however, they are public officers; therefore the Governmental Conduct Act applies to all board members.  
[16.39.1.9 NMAC - Rp, 16 NMAC 39.1.9, 1/01/2002; A, 7/01/2006]

**16.39.1.10 MEETINGS OF THE BOARD:**

**A.** Special and emergency meetings of the board may be called at any time by the chair of the board, or a majority of the board members; and meetings of either of the two (2) committees may be called at any time by order of the respective chair of the professional engineering committee or the professional surveying committee or a majority of the committee members.

**B.** Proper public notice of all meetings shall be given in accordance with the provisions of the Open Meeting Act.

[16.39.1.10 NMAC - Rp, 16 NMAC 39.1.10, 1/01/2002]

**16.39.1.11 ORGANIZATION OF THE BOARD:**

**A.** Annually, at the last meeting of the fiscal year, the board shall elect its officers, who shall take office on July 1.

**B.** Annually, at the first meeting after July 1, the chair of the board shall appoint from the board's members such additional committees as may be found appropriate by the board.

[16.39.1.11 NMAC - Rp, 16 NMAC 39.1.11, 1/01/2002]

**16.39.1.12 DUTIES OF THE BOARD, OFFICERS OF THE BOARD, AND THE EXECUTIVE DIRECTOR:**

**A.** The board shall act as a whole in all administrative, financial and personnel matters and any other activity not specifically related to the practices of engineering or surveying.

- (6) each published paper, article, or book in the licensee's area of professional practice  
10 PDH;
- (7) active participation in professional and technical societies (each organization) 2 PDH/yr;
- (8) each patent..... 10 PDH;
- (9) one (1) hour of literature review..... 1 PDH (max 6 PDH/biennium);
- (10) one (1) hour of each civic or community activity..... 1 PDH (max 4 PDH/biennium);
- (11) one (1) hour of ethics training..... 1 PDH (max 4 PDH/biennium).

**F. Determination of credit** - the board has final authority with respect to approval of courses, credit, PDH value for courses, and other methods of earning credit:

- (1) credit for college or community college approved courses will be based upon course credit established by the college;
- (2) credit for qualifying seminars, workshops, professional conventions, and courses/activities may be recommended by the professional societies;
- (3) additional criteria for credit determination shall be included in the board policy.

**G. Record keeping** - each licensee is responsible for maintaining records that support credits claimed is the responsibility of the licensee. Records required include but are not limited to: 1) a log showing the type of activity claimed, sponsoring organization, location, duration, instructor's or speaker's name, and PDH credits earned; 2) attendance verification records in the form of completion certificates, paid receipts or other documents supporting evidence of attendance; 3) proof of membership in a technical organization issuing a publication as a part of its membership fee; 4) a log indicating the medium used for a technical review, the subject of the review, the author or sponsoring organization, the date the review was conducted, a brief written summary of the contents of the reviewed material and the time spent on the review; and 5) the organization sponsoring a civic or community activity, the date and location of the activity, the subject of the activity and the licensee's involvement in the activity. These records must be maintained for a period of three (3) years and copies may be requested by the board for audit verification purposes.

**H. Exemptions** - a licensee may be exempt from the professional development educational

requirements for one (1) of the following reasons:

(1) new licensees by way of examination or comity/endorsement shall be exempt for the first year directly following the issuance of their license; PDH requirements will be prorated for any remaining portion of the licensing period beyond one (1) year from the date of initial licensure;

(2) a licensee serving on temporary active duty in the armed forces of the United States for a period of time exceeding one hundred twenty (120) consecutive days in a calendar year may be exempt from obtaining the professional development hours required during that year; supporting documentation shall be furnished to the board;

(3) licensees experiencing physical disability, illness, or other extenuating circumstances as reviewed and approved by the board may be exempt; supporting documentation must be furnished to the board;

(4) licensees who have been approved for "retired status" by the board shall be exempt from the professional development hours required; in the event such a person elects to return to active practice of professional engineering or professional surveying, professional development hours must be earned before returning to active practice for the preceding biennial cycle.

**I. Reinstatement** - a licensee may bring a lapsed license to active status by obtaining all delinquent PDH units outstanding from the last biennium and complying with all other reinstatement requirements in the Engineering and Surveying Practice Act and the board's rules and regulations; however, if the total number required to become current exceeds thirty (30), then thirty (30) shall be the maximum number required.

**J. Comity/out-of-jurisdiction resident** - licensees who are residents of other jurisdictions shall meet the continuing professional development requirements of this board. These requirements may be deemed satisfied when a non-resident licensee provides evidence of having met requirements for another state engineering/surveying licensing board that are equal to or exceed the requirements of this board.

**K. Dual licensees** - the number of PDH units required shall remain the same for persons who hold a dual license as a professional engineer and professional surveyor; for persons who hold a dual license, half of the PDH units shall be in each profession.

**L. Forms** - all renewal applications will require the number of earned PDH units. The licensee must sign the renewal application, and submit with the appropriate fee.

**16.39.3.7 DEFINITIONS:** Board-approved, four-year curriculum in engineering is defined as:

- A.** "ABET" is defined as the accreditation board for engineering and technology.
- B.** "Board-approved, four (4) -year curriculum in engineering" is defined as:
  - (1) engineering curriculum of at least four (4) years that has been accredited by ABET within at least three (3) years of the applicant's graduation with a bachelor's degree in engineering;
  - (2) curriculum not accredited by ABET but with the minimum number of engineering credits required for accreditation by ABET; and
  - (3) Curriculum required for graduate degree (master or doctoral) in engineering from an engineering program with an ABET-accredited bachelor's degree has successfully completed (as confirmed by letter from graduation committee) all requirements deficient to bachelor's degree in engineering.
- C.** "Engineering discipline" is defined as a designated area of proficiency and competence in the practice of engineering.
- D.** "FE exam" refers to the fundamentals of engineering exam.
- E.** "PE exam" refers to the principles and practice of engineering exam.
- F.** "NCEES" refers to the national council of examiners for engineering and surveying.
- G.** "Category" refers to the type of license such as professional engineer or professional surveyor as referred to in Subsections L and P of Sections 61-23-23 NMSA 1978.
- H.** "Branch" refers to engineering disciplines as referred to in 16.39.3.8 NMAC.

**16.39.3.8 ENGINEERING DISCIPLINES:**

**A.** Licensure is granted as a professional engineer and shall be so stated on the certificate. Although the Engineering and Surveying Practice Act makes no specific designation as to the disciplines of engineering practice on the certificates as issued by the board, the records and roster of the board shall indicate the discipline(s) in which the licensee is competent to practice in accordance with this section. Only the discipline(s) of engineering for which the applicant has successfully been examined or approved by the professional engineering committee will be recorded.

**B.** Requests for engineering disciplines will be accepted from the following list; and the board's records and roster will be annotated with the corresponding alphabetical code:

(1)	architectural	A
(2)	aeronautical	B
(3)	civil	C
(4)	agricultural	D
(5)	electrical and computer	E
(6)	network engineer	F
(7)	geological	G
(8)	chemical	H
(9)	industrial	I
(10)	mechanical	M
(11)	mining	N
(12)	metallurgical	NN
(13)	petroleum	P
(14)	control systems	Q
(15)	structural	R
(16)	nuclear	T
(17)	fire protection	U
(18)	environmental	V
(19)	construction	W
(20)	naval architecture and marine	Nm
(21)	software	Sw

**C.** Other disciplines may be considered as reviewed and approved by the board.

**D.** A licensee may be listed in no more than three (3) disciplines of engineering. Subsequent to initial licensure, a licensee may apply for licensure in another discipline of engineering. The licensee shall demonstrate competence in that discipline and may be required to appear before the board. Demonstration of competence may be accomplished by presenting evidence as follows:

- (1) the licensee shall file a separate application for the additional discipline requested and pay an application fee for the additional application; and
- (2) complete the application forms to indicate clearly the education, experience, and three (3) acceptable personal references which will substantiate proficiency in the discipline for which the licensee is applying; experience and personal references must be stated;
- (3) an applicant for licensure by endorsement may initially apply for the three disciplines.

**E.** Structural discipline - except for an applicant with a B.S. degree with a structural option and a minimum of four (4) years of post-baccalaureate structural engineering experience, listing as a structural engineer may be obtained by having gained an acceptable engineering degree which included a minimum of six (6) hours of structural design; having licensure as a professional engineer; and having four (4) years of structural experience gained after licensure and acceptable to the board.

- (1) Passing the NCEES structural tests part I & II may be substituted for two (2) years of the required experience.
- (2) A master's degree in structures may be substituted for one (1) year of the required experience.
- (3) An applicant for licensure as a structural engineer by endorsement shall meet the requirements of Paragraphs (1) and (2) of Subsection D of 16.39.3.8 NMAC.

**F.** Specialty sub-disciplines - The professional engineering committee of the board may determine that the special practice of engineering within one (1) or more of the engineering disciplines in Subsection B of

16.39.3.8 NMAC requires unique training/education and experience to adequately protect the public safety and health, and the professional engineering committee of the board shall declare this special practice of engineering to be a specialty sub-discipline. The declaration of a specialty sub-discipline shall be based on a need identified by the state or any of its political subdivisions, availability of appropriate and timely training/education within the state of New Mexico, and the ability of the identification of a specialty sub-discipline to inform the public of the needed special practice of engineering. If the professional engineering committee of the board declares a specialty sub-discipline, after a rules hearing, the requirements for the special practice of engineering shall be included in Title 16, Chapter 39 of the New Mexico administrative code for engineering and surveying:

(1) the specialty sub-discipline rules shall specify the training/education and experience requirements to obtain certification for the special engineering practice, including provisions for equivalent training when a particular course of training/education is specified; in anticipation that more than one (1) discipline identified in Subsection B of 16.39.3.8 NMAC will qualify for the specialty sub-discipline, the rules shall identify which engineering disciplines in Subsection B of 16.39.3.8 NMAC, are most likely to qualify for the specialty sub-discipline;

(2) the board shall maintain a list of engineers who have been certified as meeting the requirements for the specialty sub-discipline; the list shall be available to the public upon request and pursuant to the inspection of public records; the professional engineering committee of the board shall establish a form for the application to obtain a certification for the specialty sub-discipline; upon approval by the professional engineering committee of the board, the qualified licensee's name shall be added to the list of licensees having the specialty sub-discipline;

(3) a licensee's name may be removed from the list of persons certified for the specialty sub-discipline, upon determination by the professional engineering committee of the board that the licensee no longer qualifies for the certification specialty sub-discipline; such removal shall be only after the appropriate process/hearing by the professional engineering committee of the board;

(4) the failure to obtain certification for the specialty sub-discipline shall not limit the practice of engineering within any of the engineering disciplines identified in Subsection B of 16.39.3.8 NMAC, and the failure to obtain certification in the specialty sub-discipline shall not constitute practice outside the licensee's area of competence; however, the failure to obtain certification for a specialty sub-discipline and a determination by the professional engineering committee of the board of inappropriate practice of engineering within the engineering specialty may be cause for determination that the engineering practice is not within the licensee's authorized discipline, and that appropriate disciplinary action can be taken;

(5) the certification of a specialty sub-discipline shall be for a period established by the professional engineering committee of the board, but not less than two (2) years or more than six (6) years; renewal of the specialty sub-discipline shall be concurrent with license renewal;

(6) the professional engineering committee of the board may remove the specialty sub-discipline from the rules for engineering and surveying, after a rules hearing, upon the finding that the training/education is no longer available or that the designation of the specialty sub-discipline is no longer needed to protect the public safety and health.

**G.** Establishment of specialty sub-disciplines - The following specialty sub-discipline(s) for the practice of engineering are established. On-site wastewater engineering.

(1) Area of practice - the design of septic tank systems, on-site wastewater treatment plants, leach fields, evapotranspiration fields, and similar structures that do not discharge wastewater effluent directly to a surface watercourse or stream.

(2) New Mexico governmental agency identifying the need for this specialty sub-discipline - New Mexico environment department.

(3) Training/education within New Mexico - a course of training/education conducted in cooperation with the New Mexico environment department and approved by the professional engineering committee of the board. The course content shall include NM laws, unique NM conditions requiring special design practice, site testing that must be performed, procedures of approval of plans and specifications, and requirements for certification of construction.

(4) The engineering disciplines in Subsection B of 16.39.3.8 NMAC that may be applicable to this specialty sub-discipline are: architectural, civil, agricultural, geological, industrial, petroleum, environmental and construction.

(5) The certification of specialty sub-discipline for on-site wastewater engineering shall expire at the end of the license renewal period that is three (3) years after the granting of the certification for specialty sub-discipline. The certification may be renewed by submitting documentation of updated

training/education.

**16.39.3.9 APPLICATION - ENGINEERING INTERN AND PROFESSIONAL ENGINEER:**

**A.** Types of applications- licensure as a professional engineer or certification as an engineer intern require that an applicant present his or her qualifications on forms prescribed by the board.

**B.** Any application, to be complete, must include acceptable replies from references, official transcripts provided directly from the colleges or universities attended; and if applicable, verification of prior examinations taken in other states.

**C.** Board members shall not be used as references.

**D.** Applications for engineering intern certification will be accepted after applicant has passed the fundamentals of engineering exam and graduated from a board-approved, four (4)-year engineering curriculum; or graduated from a four (4)-year engineering technology program that is accredited by the technical accreditation commission of the ABET, augmented by at least two (2) years of board-approved, post graduate engineering experience. Applications to take the fundamentals of engineering exam administered by the NCEES will not be required from the state board. Successful passing of the fundamentals of engineering exam does not ensure certification as an engineer intern.

**E.** Applicants for the principles and practices of engineering examination with an ABET accredited engineering curriculum of four (4) years or more or equivalent as determined by the board shall have a minimum of two (2) years of post-baccalaureate experience acceptable to the professional engineering committee at the date of application and shall have passed the fundamentals of engineering examination. Applicants with an ABET accredited engineering technology degree shall have a minimum of four (4) years of post-baccalaureate experience acceptable to the board at the date of application and shall have passed the fundamentals of engineering examination.

**F.** No applicant will be eligible to take the professional engineering examination whose application for eligibility has not been completed, reviewed and approved by the board, as set forth in 16.39.3.9 NMAC.

**G.** Applicants for the professional engineering license will be accepted after applicant has passed the professional engineering exam and has fulfilled the education and experience requirements. Successful passing of the professional engineering exam does not ensure licensure as a professional engineer. To satisfy the statutory requirement for board-approved engineering experience prior to licensure, a candidate with an ABET accredited engineering curriculum of four (4) years or more or equivalent as determined by the board shall have four (4) years of post-baccalaureate experience acceptable to the professional engineering committee, and a candidate with an ABET accredited engineering technology degree shall have six (6) years of post-baccalaureate experience acceptable to the professional engineering committee. After successfully completing the professional engineering examination, an applicant, if necessary to meet the licensing requirements in the New Mexico Engineering and Surveying Practice Act, shall update the application as provided by Subsection H of 61.39.3.9 NMAC.

**H.** To update a professional engineer (PE) application file in relation to experience, the applicant must complete the appropriate portions of the application form and provide references acceptable to the professional engineering committee to verify each additional experience record.

**I.** Applications for licensure or certification by examination or comity/endorsement which have been approved by the professional engineering committee shall remain valid for three (3) years from the date of approval.

**J.** An applicant with foreign credentials requesting licensure by examination or endorsement shall provide to the professional engineering committee's satisfaction, evidence that the applicants' qualifications are equal to, or exceed those in New Mexico.

**K.** All applicants for PE licensure shall also show proficiency in the English language and shall have a minimum of four (4)-years experience working in the United States under the direction of an engineer who will attest to the applicant's ability and knowledge as a competent engineer.

[16.39.3.9 NMAC - Rp, 16 NMAC 39.3.9, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

**16.39.3.10 EXAMINATIONS--ENGINEERING INTERN AND PROFESSIONAL ENGINEER:**

**A.** Regularly scheduled examinations shall be held in accordance with NCEES examination schedules.

**B.** Any applicant that fails an examination will be notified by NCEES.

**C.** An applicant that has not achieved a passing score on an examination within the three (3) year application period shall only be eligible to take the next scheduled examination after re-submitting a new application and providing detailed documentation to the board of further study in preparation of the exam.

**D.** The type of examination will be disclosed to the examinee at a time to be set by the NCEES. The examination type will be one (1) of the following:

- (1) an "open book" examination shall be an examination during which the examinee may use reference material as specified by the national council of examiners for engineering and surveying;
- (2) a "closed book" examination shall mean that absolutely no reference material of any shape or form may be used by the examinee except as provided by the board during the examination; or
- (3) a "computer based" examination.

**E.** Only calculators specified by the NCEES shall be admitted in the examination room during the administration of the licensing examinations.

**F.** Questions regarding the completed fundamentals of engineering examination or the principles and practice of engineering examination shall be directed to NCEES.

[16.39.3.10 NMAC - Rp, 16 NMAC 39.3.10, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

#### **16.39.3.11 PRACTICE OF ENGINEERING:**

**A.** Neither a person nor an organization shall advertise, accept work or offer to practice engineering work in a discipline of engineering unless the person or a member of the organization has been approved by the professional engineering committee in the appropriate discipline and who is legally able to bind that organization by contract.

**B.** Neither persons nor organizations shall circumvent these rules. Licensees or organizations may advertise for work only in those disciplines of engineering in which they are approved by the professional engineering committee to practice. Nothing in this section is intended to prevent the existence of an association of professionals in different disciplines.

**C.** In the event a question arises as to the competence of a licensee in a specific technical field which cannot be otherwise resolved to the board's satisfaction, the board shall, either upon request of the licensee or of its own volition, require the licensee to pass an appropriate examination.

**D.** The professional engineering committee will consider the use of the terms, "engineer", "engineering", or any modification or derivative of such terms, in the title of a firm or organization to constitute the offering of engineering. The board will also consider the use of these terms or any modification or derivative of such terms in a corporation's name or its articles of incorporation or in a foreign corporation's certificate of authority as published by the New Mexico public regulation commission to constitute the offering of engineering services.

[16.39.3.11 NMAC - Rp, 16 NMAC 39.3.11, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

#### **16.39.3.12 SEAL OF LICENSEE:**

**A.** Each licensed professional engineer shall obtain a seal/stamp, which shall appear on all final engineering design drawings, the certification page of all specifications and engineering reports prepared by the licensee in responsible charge. Adjacent to the seal/stamp shall appear the original signature of the licensee along with the date the signature was applied. Rubber stamps signatures are not acceptable. Electronic signatures as provided by law and board's policy shall be acceptable.

**B.** The seal/stamp shall be the impression type seal, the rubber type, or a computer-generated facsimile. Computer generated seals shall be bona fide copies of the actual seal/stamp specific to the work being presented.

**C.** The design of the seal/stamp shall consist of three (3) concentric circles, the outermost circle being one (1) and one-half (1/2) inches in diameter, the middle circle being one (1) inch in diameter, and the innermost circle being one-half (1/2) inch in diameter. The outer ring shall contain the words, PROFESSIONAL ENGINEER" and the licensee's name. The inner ring shall contain the words "NEW MEXICO". The center circle shall contain the license number issued by the board. Any border pattern used by the manufacturer is acceptable.

**D.** Professional engineers who were licensed prior to the enactment of these current rules and who have maintained that license without lapse, may retain and use the seals, stamps, and wall certificates previously approved.

**E.** For the purposes of the Engineering and Surveying Practice Act, a licensee of this board has "responsible charge of the work" as defined in Subsection M of Section 61-23-3, NMSA 1978 and may sign, date and seal/stamp plans, specifications, drawings or reports which the licensee did not personally prepare when plans, specifications, drawings or reports have been sealed only by another licensed engineer, and the licensee or persons directly under his personal supervision have reviewed the plans, specifications, drawings or reports and have made tests, calculations or changes in the work as necessary to determine that the work has been completed in a proper

and professional manner.

**F.** The seal and signature shall be placed on work only when it is under the licensee's responsible charge. The licensee shall sign and seal only work within the licensee's area of discipline.

**G.** When the document contains more than one (1) sheet, the first or title page shall be sealed and signed by the licensee who was in responsible charge. Two (2) or more licensees may affix their signatures and seals provided it is designated by a note under the seal specific subject matter for which each is responsible. In addition, each sheet shall be sealed and signed by the licensee or licensees responsible for that sheet. When a firm performs the work, each sheet shall be sealed and signed by the licensee or licensees who were in responsible charge of that sheet.

**H.** An electronic signature, as an option to a permanently legible signature, is acceptable for professional documents. The licensee shall provide adequate security regarding the use of the seal and signature.

**I.** The board shall recognize that there may be occasions when engineers need to obtain supplemental survey information for the planning and design of an engineering project. An engineer may densify, augment and enhance previously performed survey work by a surveyor for a project as defined in Subsection S of Section 61-23-3 of the Practice Act.

[16.39.3.12 NMAC - Rp, 16 NMAC 39.3.12, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

**16.39.3.13 ENDORSEMENTS:** For the purpose of New Mexico licensees by endorsement from other states, or possessions, the professional engineering committee will only recognize licensure granted by those authorities when the professional engineering committee has determined that the applicant possesses qualifications which "do not conflict with the provisions of the Engineering and Surveying Practice Act and are of standard not lower than that specified in Sections 61-23-14 and 61-23-14.1, NMSA 1978". Conditions establishing eligibility for licensure by endorsement shall have been met at the time of initial licensure. Additionally, the applicant must have a current license in another state, the District of Columbia, a territory or a possession of the United States, or in a foreign country. Conditions for endorsement for licensure as a professional engineer shall be as follows:

**A.** graduation from an approved engineering curriculum, four (4) years of experience satisfactory to the professional engineering committee, and passing of the eight (8)-hour fundamentals and eight (8)-hour professional examinations; (1979 law and 1987 law);

**B.** graduation from an ABET accredited engineering technology program, six (6) years of experience satisfactory to the professional engineering committee, and passing of the eight (8)-hour fundamentals examination and 8-hour professional examination(1993 law);

**C.** licensure prior to July 1, 2002 graduation from an ABET accredited engineering technology program or from an engineering or related science curriculum approved by the committee, six (6) years of experience satisfactory to the professional engineering committee, and passing of the eight (8)-hour fundamentals and eight (8)-hour professional examination (1993 law);

**D.** licensure prior to July 1, 1993 by graduation from an engineering or related science curriculum other than the ones approved by the committee, eight (8) years of experience satisfactory to the professional engineering committee, and passing of the eight (8)-hour fundamentals and eight (8)-hour professional examination (1979 law and 1987 law);

**E.** licensure prior to July 1, 1993, by graduation from an engineering or related science curriculum, twenty (20)-years experience satisfactory to the professional engineering committee, and passing the eight (8)-hour professional examination (1979 law and 1987 law);

**F.** licensure prior to July 1, 1940, by twelve (12) years of experience satisfactory to the professional engineering committee (1934 law);

**G.** licensure prior to July 1, 1957, by graduation from an approved curriculum, and four (4) years or more of experience satisfactory to the professional engineering committee (1935 law);

**H.** licensure prior to July 1, 1957, by passing a written and oral examination designed to show knowledge and skill approximating that attained through graduation from an approved curriculum, and four (4) years or more of experience satisfactory to the professional engineering committee (1952 law);

**I.** licensure prior to July 1, 1967, by twenty-four (24) years of experience satisfactory to the professional engineering committee, and by passing an oral examination (1957 law);

**J.** licensure prior to July 1, 1967, by graduation from an approved curriculum prior to July 1, 1957, and passing the eight (8)-hour professional examination (1957 law);

**K.** licensure prior to July 1, 1979, by eight (8) years of experience satisfactory to the professional engineering committee, and by having passed the eight (8)-hour fundamentals and 8-hour professional examinations (1969 law);

- L.** licensure prior to July 1, 1979, by thirty (30) years of experience, the last twelve (12) years of which must have been of outstanding nature and by having been nationally eminent among his peers (1967 law);
- M.** for the purposes of endorsement, an approved engineering curriculum shall be an ABET accredited engineering curriculum of four (4) years or more or equivalent as determined by the board.

**16.39.5.7 DEFINITIONS:**

- A.** “ABET” is defined as the accreditation board for engineering and technology.
- B.** “Board-approved, four (4)-year curriculum in surveying” is defined as:
  - (1) surveying curriculum of at least four (4) years that has been accredited by ABET within at least three (3) years of the applicant’s graduation with a bachelor’s degree in surveying;
  - (2) curriculum not accredited by ABET but with a minimum number of surveying credits required for accreditation by ABET;
- C.** “Board-approved related science degree” is defined as:
  - (1) A four (4)-year bachelor of arts or science degree that contains a minimum of eighteen (18) core curriculum hours in surveying, twelve (12) hours of higher mathematics and six (6) hours of basic science.
  - (2) Core surveying classes shall include a minimum of a three (3)-hour semester course in each of the following areas:
    - (a) boundary law/ legal principles of land surveying;
    - (b) public land surveying system (PLSS);
    - (c) plane surveying;
    - (d) geodesy or photogrammetry.
  - (3) The remainder of the eighteen (18) core curriculum hours in surveying may include classes in route surveying, geographic information systems, land development, global positioning systems, photogrammetry or geodesy, mapping professional ethics and remote sensing.
  - (4) Twelve (12) hours of higher mathematics may include college algebra, trigonometry, analytical geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistic and advanced calculus.

(5) Six (6) hours of basic science may include physics, chemistry, geology, physical geography, biology and astronomy.

**16.39.5.8 APPLICATION - SURVEYOR INTERN AND PROFESSIONAL SURVEYOR:**

- A.** Types of application - licensure as a professional surveyor or certification as a survey intern require that an applicant present his or her qualifications on forms prescribed by this board.
- B.** Any application, to be complete, must include acceptable replies from references, official transcript(s) provided directly from the university; and if applicable, verification(s) of prior examinations taken in other state(s).
- C.** Board members shall not be used as references.
- D.** Applications for surveying intern certification will be accepted after an applicant has passed the fundamentals of surveying exam and has graduated from a board-approved, four (4)-year surveying curriculum, or if a graduate of an approved four (4)-year curriculum in a related science as defined by Subsection C of 16.39.5.7 NMAC above and augmented with four (4) years of combined office and field board approved surveying experience obtained under the direction of a licensed professional surveyor. Class time will not be counted in the four (4) years of experience, but work prior to or while attending school may be counted toward the four (4) years of required experience at the discretion of the board.
- E.** Applicants for the principles and practices of surveying examination having graduated with a board-approved four (4)-year surveying curriculum of four (4) years or more, or with a related-science degree, as determined by the board shall have a minimum of four (4) years of experience acceptable to the professional surveying committee at the date of application and shall have passed the fundamentals of surveying examination.
- F.** No applicant will be eligible to take the professional surveying examination whose application for eligibility has not been completed, reviewed and approved by the board, as set forth in 16.39.5.8 NMAC.
- G.** Applicants for the professional surveying license will be accepted after applicant has passed the professional surveying exam and has fulfilled the education and experience requirements. Successful passing of the professional surveying exam does not ensure licensure as a professional surveyor. To satisfy the statutory requirement for board-approved surveying experience prior to licensure, a candidate with a board-approved surveying curriculum of four (4) years or more as determined by the board shall have four (4) years of experience acceptable to the professional surveying committee. This experience may be acquired before or after certification as a surveying intern. A candidate with a related science degree shall have four (4) years of surveying experience acceptable to the professional surveying committee subsequent to certification as a surveying intern. After successfully completing the professional surveying examination, an applicant, if necessary to meet the licensing requirements in the New Mexico Engineering and Surveying Practice Act, shall update the application as provided by Subsection H of 61.39.5.8 NMAC.
- H.** To update a professional survey (PS) application file in relation to experience, the applicant must complete an application update form and provide references acceptable to the professional surveying committee to verify each additional experience record.
- I.** Applications for licensure or certification by examination, comity or endorsement which have been approved by the professional surveying committee shall remain valid for three (3) years from the date of approval.
- J.** An applicant with foreign credentials requesting licensure by examination or endorsement shall provide to the professional surveying committee's satisfaction, evidence that the applicant's qualifications are equal to or exceed the qualifications for licensure in effect in New Mexico at the time of application.
- K.** All applicants for professional surveyor license shall show proficiency in the English language and shall have a minimum of four (4) years of experience if a graduate of a board approved, four (4) year surveying curriculum or eight (8) years if a graduate of a board approved related science curriculum, working in the United States under the direction of a licensed professional surveyor who can attest to the applicant's ability and knowledge as a competent surveyor.

**16.39.5.9 EXAMINATIONS--SURVEYOR INTERN AND PROFESSIONAL SURVEYOR:**

- A.** Regularly scheduled examinations shall be held in accordance with NCEES examination schedules. Other examinations may be held at times and places as determined by the professional surveying committee.
- B.** An applicant that fails the New Mexico state specific surveying examination will be notified of the

next available examination sessions. A written request to retake the examination and payment of the examination fee shall be on or before the specified date set by the board. Any applicant that fails a NCEES examination will be notified by NCEES.

**C.** An applicant that has not achieved a passing score on an examination within the three (3) year application period shall only be eligible to take the next scheduled examination after re-submitting a new application and providing detailed documentation to the board of further study in preparation of the exam.

**D.** The type of examination will be disclosed to the examinee at a time to be set by the NCEES. The examination type will be one of the following:

(1) an "open book" examination shall be an examination during which the examinee may use reference material as specified by the national council of examiners for engineering and surveying;

(2) a "closed book" examination shall mean that absolutely no reference material of any shape or form may be used by the examinee except as provided by the board during the examination; or

(3) a "computer based" examination.

**E.** Only calculators specified by the NCEES shall be admitted in the examination room during the administration of the licensing examinations.

**F.** An applicant who has a question regarding the New Mexico state specific surveying examination shall put the question in writing to the professional surveying committee. The question will be considered at the next professional surveying committee meeting. The committee's answer to the examinee shall be in writing. Questions regarding the completed fundamental of surveying examination or the principles and practice surveying examination shall be directed to NCEES.

#### **16.39.5.10 PRACTICE OF SURVEYING:**

**A.** A person or any organization shall not advertise or offer to practice surveying work or accept such work unless that person or a member of the organization is licensed by the board and is legally able to bind that organization by contract.

**B.** Neither persons nor organizations shall circumvent these rules.

**C.** Nothing in this section is intended to prevent the existence of an association of professionals in different disciplines.

**D.** The board will consider the use of the terms, "surveyor", "surveying" or any modification or derivative of such terms, in the title of a firm or organization to constitute the offering of surveying services. The board also considers the use of these terms or any modification or derivative of such terms in a domestic corporation's articles of incorporation or in a foreign corporation's certificate of authority as published by the New Mexico's secretary of state to constitute the offering of surveying services.

[16.39.5.10 NMAC - Rp, 16 NMAC 39.5.10, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

#### **16.39.5.11 SEAL OF LICENSEE:**

**A.** Each licensed professional surveyor shall obtain a seal/stamp which must be impressed on all plats, reports, etc., prepared by the licensee in responsible charge. Adjacent to the seal/stamp shall appear the original signature of the licensee along with the date the signature was applied. Rubber stamps and all facsimiles of signatures are not acceptable. Electronic signature as provided by law and board's policy shall be acceptable.

**B.** The seal/stamp shall be either the impression type seal, the rubber type, or a computer-generated facsimile. Computer-generated seals shall be bona fide copies of the actual seal/stamp specific to the work being presented.

**C.** The design of the seal/stamp shall consist of three concentric circles, the outermost one (1) being one and one-half (1 ½) inches in diameter, the middle circle being one (1) inch in diameter and the innermost circle being one-half (½) inch in diameter. The outer ring shall contain the words, "Professional Surveyor", and the licensee's name. The inner ring shall contain the words "New Mexico". The center circle shall contain the license number issued by the board. Any border pattern used by the manufacturer is acceptable.

**D.** Professional surveyors who were licensed prior to the enactment of these current rules and who have maintained that license without lapse, may retain and use the seals, stamps, and wall certificates previously approved.

**E.** The seal and signature shall be placed on work only when it was under the licensee's responsible charge. The licensee shall sign and seal only work within the licensee's area of discipline.

**F.** When the document contains more than one (1) sheet, the first or title page shall be sealed and signed by the licensee who was in responsible charge. Two (2) or more licensees may affix their signatures and

seals provided it is designated by a note under the seal the specific subject matter for which each is responsible. In addition, each sheet shall be sealed and signed by the licensee or licensees responsible for that sheet. When a firm performs the work, each sheet shall be sealed and signed by the licensee or licensees who were in responsible charge of that sheet.

**G.** An electronic signature, as an option to a permanently legible signature, is acceptable for professional documents. The licensee shall provide adequate security regarding the use of the seal and signature. [16.39.5.11 NMAC - Rp, 16 NMAC 39.5.11, 1/01/2002; A, 7/01/2006; A, 7/1/2015]

**16.39.5.12 ENDORSEMENTS:** For the purpose of New Mexico licensees by endorsement from other states, or possessions, the professional surveying committee will only recognize licensure granted by those authorities when the professional surveying committee has determined that the applicant possesses qualifications which “do not conflict with the provisions of the Engineer and Surveying Practice Act and are of standard not lower than that specified in Sections 61-23-27.3 and 61-23-27.4 NMSA 1978”. Conditions establishing eligibility for licensure by endorsement shall have been met at the time of initial licensure. Additionally, the applicant must have a current license in another state, the District of Columbia, a territory or a possession of the United States, or in a foreign country. Conditions for endorsement for licensure as a professional surveyor shall be as follows:

**A.** Graduation from a four (4)-year board-approved surveying curriculum, four (4) years of experience satisfactory to the professional surveying committee, and passing of the fundamentals of surveying and professional surveying examinations (1995 law).

**B.** Graduation from an engineering or related science curriculum that are approved by the committee and augmented with eighteen (18) semester hours of surveying, eight (8) years of experience satisfactory to the professional surveying committee, and passing of the eight (8) hour fundamentals and eight (8) hour professional examinations (1995 law).

**C.** Licensure prior to July 1, 1995 by graduation from a two (2) year board-approved surveying or associated curriculum, eight (8) years of experience satisfactory to the professional surveying committee and passing of the eight (8) hour fundamentals and eight (8) hour professional examination.

**D.** Licensure prior to July 1, 1995 by graduation from a board- approved surveying or associated curriculum of at least forty-five (45) semester hours, eight (8) years of experience satisfactory to the professional surveying committee, and passing of the eight (8) hour fundamentals and eight (8) hour professional examination;

**E.** Licensure prior to July 1, 1979, eight (8) years of experience satisfactory to the professional surveying committee and passing of the eight (8) hour fundamentals and eight (8) hour professional examinations. [16.39.5.12 NMAC - N, 7/1/2015]

[16.39.8.7 NMAC - Rp, 16 NMAC 39.8.7, 1/01/2002]

**16.39.8.8 PREAMBLE:**

**A.** In order to safeguard life, health and property, to promote the public welfare, and to establish and maintain a high standard of integrity and practice, the following Rules of Professional Conduct shall apply to every person holding a certificate of licensure to perform engineering or surveying services in the State of New Mexico.

**B.** The Rules of Professional Conduct as promulgated herein are an exercise of the regulatory power vested in the Board by virtue of the acts of the legislature. These rules are in addition to but are not intended to supersede, the provisions of the New Mexico Engineering and Surveying Practice Act.

**C.** All persons licensed under the New Mexico Engineering and Surveying Practice Act are charged with having knowledge of the existence of these Rules of Professional Conduct and shall be deemed to be familiar with the provisions of these rules and to understand them. Such knowledge shall encompass understanding these rules of Professional Conduct and failure to follow these rules may be considered misconduct by the Board.  
[16.39.8.8 NMAC - Rp, 16 NMAC 39.8.8, 1/01/2002]

**16.39.8.9 RULES OF PROFESSIONAL CONDUCT:**

**A.** The protection of the public safety, health, welfare and property in the performance of professional duties.

**(1)** In order to protect public safety, health, welfare and property in the performance of their professional duties, licensees shall at all times:

**(a)** Perform those duties in conformance with accepted engineering and surveying practices.

**(b)** Notify their employer or client and such other authority as may be appropriate of

any instance in which their professional judgment is overruled under circumstances endangering the public safety, health, welfare or property.

(c) Approve and seal only those engineering and surveying documents which conform to applicable engineering and surveying standards.

(d) Shall not reveal privileged or confidential facts, data or information without prior consent of the client or employer except as authorized or required by law or this code.

(e) Refuse to associate in a business venture with any person or firm whom they may have reason to believe is engaging in fraudulent or dishonest business or professional practices as an engineer or surveyor and refuse to use or permit the use of their name or firm in connection with any such business venture.

(f) Inform the board of any violation of this code. Cooperate with the board in furnishing information or assistance as may be requested by the board in matters concerning violations.

(g) Shall not assist or participate in the unlawful practice of engineering and surveying by a person or firm.

**B.** Specialization and the performance of services only in specific areas of competence.

(1) Licensees shall undertake assignments only when qualified by education, experience or examination in the specific technical fields of engineering or surveying involved.

(2) Licensees shall not affix their signatures or seals to any plans or documents dealing with subject matter in which they lack competency, nor to any such plan or documents not prepared under their responsible charge.

(3) Licensees may accept an assignment when the total work involves technical fields beyond those in which they are qualified, providing their services are limited to those phases in which they are qualified and that the phases in which they are not qualified are performed by licensees who are properly qualified. In this instance, each qualified licensee will sign and seal the documents for their phase of the assignment.

**C.** The issuance of public statements.

(1) Licensees shall be objective and truthful in professional reports, statements or testimony. A professional report or professional opinion issued by or under the responsible charge of a licensee shall not contain any intentionally false, misleading or deceitful statements or testimony. Any report, statement or testimony by a licensee shall contain all relevant and pertinent information as required by accepted engineering or surveying principles.

(2) If a licensee issues statements on technical matters in his or her capacity as a professional engineer or professional surveyor on behalf of an interested party, the licensee must expressly preface his or her remarks by identifying said interested party and by revealing the existence and nature of any interest the licensee may have in the matter.

(3) A licensee who is competent in the subject matter may express publicly technical opinions that are found upon knowledge of the facts.

**D.** Professional relationships with employer or client.

(1) Licensees shall act in professional matters for each employer or client as fiduciaries and shall avoid conflicts of interest. Licensees shall disclose all known or potential conflicts of interest to their employers or clients by promptly informing them of any business association, interest or other circumstances which could reasonably be expected to influence their judgment or the quality of their services.

(2) Licensees shall not accept compensation, financial or otherwise, from more than one party for services on the same project, unless the circumstances are fully disclosed to, and agreed to, by all interested parties.

(3) Licensees shall not solicit or accept any gratuity, material favor, or any valuable consideration, directly or indirectly, from contractors, their agents, servants or employees or from any other party dealing with his client or employer in connection with any project for which he is performing or has contracted to perform engineering or surveying services. (The phrase "valuable consideration" is defined to mean any act, article, money or other material possession which is of such value or proportion that its acceptance creates a clandestine obligation on the part of the receiver or otherwise compromises his ability to exercise his own judgment.)

(4) Licensees in public service as a member or employee of a governmental body, agency or department shall not participate, directly or indirectly in deliberations or actions which would constitute a conflict of interest with respect to services offered or provided by him, his associates, or the licensee's organization to such governmental body, agency or department.

(5) Licensees shall not solicit or accept a professional contract from a governmental body on which a principal or officer of their organization serves as a member, except upon public disclosure of all pertinent facts and circumstances and consent of appropriate public authority.

(6) Licensees shall not reveal privileged or confidential facts, data or information obtained in a professional capacity without prior consent of the client or employer except:

(a) As provided in Subparagraph (b) and (f) of Paragraph (1) of Subsection A of 16.39.8.9 NMAC.

(b) As authorized or required by law.

(c) Any document that is a matter of public record by virtue of it being on file with a public agency.

(d) Any fact, data or information which is clearly the property of the engineer or surveyor.

**E. Solicitation of professional employment.**

(1) Licensees shall not falsify or permit misrepresentation of their, or their associates' academic or professional qualifications. They shall not misrepresent or exaggerate their degree of responsibility in or for the subject matter of prior assignments. Brochures or other representations incident to the solicitation of employment shall not misrepresent pertinent facts concerning employers, employees, associates, joint ventures or past accomplishments with the intent and purpose of enhancing their qualifications and their work.

(2) Licensees shall not offer, give, solicit or receive, either directly or indirectly, any commission, gift, or other valuable consideration in order to secure or influence the award of work and shall not make any political contribution in an amount intended to influence the award of a contract by public authority, and which may be reasonably construed by the public as having the effect or intent to influence the award of a contract.

**F. Avoiding conduct or practice that deceives the public.**

(1) Licensees shall avoid the use of a statement containing a material misrepresentation of a fact or omitting a material fact.

(2) Consistent with the foregoing, licensees may prepare articles for the lay or technical press, but such articles shall not imply credit to the author for work performed by others.

**G. Interaction with other licenses.**

(1) Licensees shall not attempt to injure, maliciously or falsely, directly or indirectly, the professional reputation, prospects, practice or employment of other licensees.

(2) Licensees in private practice shall not review the work of another licensee for the same client, except with the knowledge of such licensees, or unless the connection of such licensee with the work has been terminated.

(3) Licensees in governmental, industrial, or educational employment are entitled to review and evaluate the work of other licensees when so required by their employment duties.
