

MICHELLE LUJAN GRISHAM
GOVERNOR

STATE OF NEW MEXICO
**BOARD OF LICENSURE FOR
PROFESSIONAL ENGINEERS AND SURVEYORS**

P.O. Box 25101 • Santa Fe, New Mexico 87504
(505) 476- 4565 Office • (505) 476-4806 Facsimile
www.sblpes.state.nm.us

Effective: July 1, 2017

To Whom It May Concern:

61-23-21 of the Engineering and Surveying Practice Act as amended now requires filing a signed and notarized affidavit designating the authorized company officer and professional engineer for all business entities offering professional engineering services operating in the State of New Mexico. This affidavit must be kept on file with the Board of Licensure.

We have put together the following instruction sheet to simplify the process for you.

1. Please complete the forms by printing in black ink or by typing them. Incomplete forms will be returned.
2. All forms must be notarized and the originals submitted to this office, please keep a copy for your records.
3. Only New Mexico Licensed Engineers qualify to be an Engineer of Record for your business entity.
4. If the President, a Partner, or an Officer of the business entity is the Engineer of Record for your business entity, then that individual would complete only page # 4.
5. If an Engineer of Record is not the President, a Partner, or an Officer of the business entity, then complete page # 2 and page # 3. The business entity's President, a Partner, or an Officer of the business entity is to complete page # 2. The Engineer of Record is to complete Page # 3.
6. The "SCC no." refers to the State Corporation Commission number assigned to your business entity.

In addition to the above steps, please remember that you may need to register with the following state agencies:

New Mexico Department of Taxation and Revenue
Corporate Income & Franchise Tax
Post Office Box 25127
Santa Fe, New Mexico 87504-5127
(505) 827-7000

New Mexico Secretary of State
Corporations Bureau
325 Don Gaspar, Ste. 300
Santa Fe, New Mexico 87501
(800) 477-3632 / (505) 827-4508

If you have any questions or concerns, please contact this office at your convenience by telephone at (505) 476-4565.

**POLICY ON BUSINESS ENTITIES PRACTICING ENGINEERING
IN NEW MEXICO****I. New Mexico State Law (61-23-21 NMSA 1978)**

New Mexico law, 61-23-21 NMSA 1978, entitled “Practice of Engineering” states that “Professional engineers may engage in the practice of engineering and perform engineering work pursuant to the Engineering and Surveying Practice Act as individuals or through a business entity. In the case of an individual, the individual shall be a professional engineer pursuant to the Engineering and Surveying Practice Act. [...] In the case of practice through a business entity that is a partnership, at least one of the partners shall be a professional engineer pursuant to the Engineering and Surveying Practice Act [...] In the case of practice through a business entity other than a partnership, services or work involving the practice of engineering may be offered through the business entity; provided that the person in responsible charge of the activities of the business entity that constitute engineering practice is a professional engineer who has authority to bind the business entity by contract; and further provided that all plans, designs, drawings, specifications or reports that are involved in engineering practice, or that are issued by or for such business entity, bear the seal and signature of a professional engineer in responsible charge of and directly responsible for the work when issued. [...] In the case of practice through a business entity offering or providing services or work involving the practice of engineering, an authorized company officer and the professional engineer who is employed by the business entity and in responsible charge shall place on file with the board a signed affidavit, as prescribed by board rule. The affidavit shall be kept current, and, if there is any change in the professional engineer or authorized company officer, the affidavit shall be promptly revised and resubmitted to the board.

II. Board’s Statement of Policy

The law of New Mexico as quoted above has basic requirements before a business entity can legally practice engineering. They are:

1. A licensed engineer must be responsible for the activities of the business entity relating to engineering. The engineer must have authority to contract for the business entity for such engineering work with clients.
2. A signed and notarized affidavit designating the authorized company officer and professional engineer must be kept on file with the Board of Licensure.
3. The affidavit shall be kept current, and, if there is any change in the professional engineer or authorized company officer, the affidavit shall be revised within 30 days and resubmitted to the Board. (NMAC 16.39.3.11(E))

The licensed New Mexico engineer signing the affidavit must be given express authority by the owner(s) and/or management of such business entity regarding engineering, and such engineer must be required by resolution to have responsible charge and control of the activities of the business entity regarding engineering.

Adopted: June 2, 2017
