Good morning Kyle Walker,

The proposed language is already incorporated. I have attached the documents for your review.

If we are adding language the new language will be underlined. If we are taking out language the language will be in brackets and have a strike through.

Just an FYI there are not a lot of changes in 16.39.2, 16.39.3 16.39.5 and 16.39.8. Each document has about 3-4 changes. 16.39.6 has the majority of the changes.

Sincerely,

Isaac Maes

Good afternoon, I am writing to see if there are marked up versions of the proposed changes to the surveying/engineering statutes. I have been comparing them trying to spot a difference briefly and have been unable to spot them. I will give it a more detailed look after work, but if there is a marked up version it would save me some time.
